

**UNIT IDENTIFICATION CODE - ACTUAL**

**PAST DUTY STATION**

A. DEFINITION:

A five-position alphanumeric code which is the primary Manpower, Personnel and Training Information System (MAPTIS) Activity Identifier. UIC is issued and maintained by the Comptroller of the Navy. The UIC is unique to the activity to which it is assigned.

A UIC/Duty Station is added when an officer reports to a new activity for duty. Assignment to an activity for less than five months is generally not included. Periods of inactive duty, inactive retired time, and time in a prisoner of war status are included.

The current UIC in Occurrence 1 may contain the UIC of the Activity at which an officer is on board for duty or temporary duty, or the UIC from which he/she is in transit.

REMARKS: A maximum of twelve UICs will be maintained on the database in reverse chronological order, with the current UIC associated with the Current Duty Station in Occurrence 1. Occurrence 2 is associated with Past Duty Station 1, Occurrence 3 is associated with Past Duty Station 2, etc.

The database uses the TFMMS ACTIVITY File to verify the UIC.

**UNIT IDENTIFICATION CODE - ACTUAL**

**PAST DUTY STATION (continued)**

**UNIT IDENTIFICATION CODE - ADDITIONAL DUTY**

A. DEFINITION:

A five-position alphanumeric identification code unique for each activity. This Unit Identification Code (UIC) pertains to an activity to which an officer is assigned for additional duty. A maximum of nine UICs can be recorded.

REMARKS: Database uses the TFMMS ACTIVITY File to verify the UIC.

First four positions of UIC are always numeric, but the fifth position may be alphabetic.

See UNIT IDENTIFICATION CODE - ACTUAL for more information.
